**DETAILED ACTION**

***Election/Restrictions***

- (1). Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 14-17,25, drawn to composition, classified in 524/406.

Group II, claim(s) 18-21, drawn to process of metal surface treatment, classified in 427.

Group III, claim(s) 22-24, drawn to process for deposition of metals or metal alloys on a plastics surface, classified in 205.

- (2). The inventions listed as Groups I and II, III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The same process is useful for lubrication on metal surface.

- (3). A telephone call was made to Attorney Herbert Keil on September 7, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
